DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 2-12 have been considered but are most in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-4 and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claims 2 and 12, it is not clear as whether the second cavity and the second wavelength are existed since the claims recite the first cavity and the first wavelength.

The remaining claims are dependent on the above rejected claims and therefore are also rejected.

Application/Control Number: 10/081,071

Art Unit: 2828

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 2-4 and 10-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over the admitted prior art in this application in view of Clayton et al. (US2003/0039024).

With respect to claims 2-4 and 10-11, Prior art shows in Fig.1 (Jepson Style claim) a bottom mirror 101, an active region 102, an optical fiber 106, and a polarization filter 104. Prior art lacks a top mirror comprising a Bragg reflector and a pumping laser. Clayton teach in Fig.3 a top mirror 46 comprising a Bragg reflector and a pumping laser 34. For the benefit of forming an optical cavity, it would have been obvious to one having ordinary skill in the art at the time the invention was made to provide Prior art a top mirror comprising a Bragg reflector and a pumping laser as taught by Clayton.

With respect to claim 12, Prior art and Clayton disclose all limitations of the claim except for the top contact. It would have been obvious to one having

ordinary skill in the art at the time the invention was made to include the contact since it was known in the art that a semiconductor laser cannot be operable without the contact.

Claims 5-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over the admitted prior art in this application in view of Clayton et al.

(US2003/0039024) and further in view of Boucart et al. (US6535541). Prior art and Clayton disclose all limitations of the claims except for a mechanism for altering the wavelength of the light reflected. Boucart teach in Fig. 19 a mechanism for altering the wavelength of the light reflected (col.10, 1.8-19). For the benefit of altering the wavelength, it would have been obvious to one having ordinary skill in the art at the time the invention was made to provide Prior art and Clayton a mechanism for altering the wavelength of the light reflected as taught by Boucart.

Art Unit: 2828

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Communication Information

Any inquiry concerning this communication or earlier communications from

the examiner should be directed to Dung (Michael) T Nguyen whose telephone

number is (571) 272-1949. The examiner can normally be reached on 8:30 -

17:00.

If attempts to reach the examiner by telephone are unsuccessful, the

examiner's supervisor, Paul Ip can be reached on (571) 272-1941. The fax phone

number for the organization where this application or proceeding is assigned is

(703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or

proceeding should be directed to the receptionist whose telephone number is (703)

306-3329.
